Profile

Hi there!

It's Enis, a web developer with over two years of experience.

I specialize in integrating modern front-end technologies, such as React with various platforms like Supabase or WordPress to create beautiful and functional web and mobile apps.

Feel free to check out my portfolio and GitHub profile to see some of my past work.

Skills

Proficiency in Full-Stack Development: Adept in web application development using PHP, MySQL, React, focusing on RESTful APIs and CRUD.

Demonstrated at <https://kalyon.tech> and <https://github.com/eniskalyon/full-stack-contact-form>, showcasing comprehensive skills.

Dynamic and Responsive Web Development: Proficient with React.js and Next.js, creating engaging, responsive web applications, evidenced by personal projects.

Front-End Development with Next.js: Skilled in Next.js for advanced front-end development, enhancing web app efficiency and speed.

Asynchronous JavaScript: Capable in asynchronous JavaScript, boosting application performance and user experience.

Utilizing APIs: Skilled in API integration, enhancing application functionality and engagement, supported by practical project experience.

Custom WordPress Solutions: Experienced in developing custom WP themes, plugins, and Gutenberg blocks for personalized web solutions.

Integrating WordPress with React: Proficient in combining WordPress with React, creating dynamic interfaces, as seen at <https://kalyon.dev>.

API Integration and Management: Proven in managing APIs like Twitter API and OpenAI API, adding advanced functionalities to applications.

Adaptability in Tech Environments: Agile in new technologies, evidenced by diverse projects and IT Management Systems studies.

Effective Communication Skills: Strong English skills (IELTS Academic 7.5), ensuring efficient communication in teams and client interactions.

Education

08/2023 – PRESENT ANKARA, TURKEY

IT Management Systems | Master's Degree

Yesevi University

I'm currently pursuing a Master's in IT Management Systems as a self-taught programmer with expertise in JavaScript, React, and more. My dedication to expanding my knowledge in this field is what drives me to embrace this valuable program.

09/2014 – 03/2019 ANKARA, TURKEY

Law | Bachelor's degree

Gazi University

Technologies

Front-End:

JavaScript
TypeScript
React
Next.js
Tailwind
CSS3
HTML5

Back-End & Server-Side:

PHP
Node.js
MySQL
RESTful APIs

Database & Data Management:

MySQL
phpMyAdmin

WordPress:

WordPress Theme Development
WordPress Plugin Development
Gutenberg Block Development
Advanced Custom Fields

API Integration & Development:

Twitter API
OpenAI API

Deployment & Version Control:

Git
GitHub
DeployHQ

Social Media
